Customer Reviews

Interested parties beware! This book does not cover .22 and shotgun ammo boxes. The description doesn't tell you this and the title is a bit misleading. Otherwise the book is very well done and worth the money to any serious collector.

Recommend this book highly. Those of you who are looking for detailed history concerning Winchester Cartridges and Weapons they were used in, this is definitely the book for you.

Unbelievable detail, presented in and easy to follow format. High Quality book and one that will bring countless hours of satisfaction reading and reading again. Hats off to the authors for a job more than well done.MHD

very informative book for the past history of winchester ammo boxes. There are so many that it gets very confusing but this helps with the pictures and descriptions.

Who knew that Winchester ammunition boxes were so collectable and interesting. Very well organized book with a wealth of information.

The book is an excellent source for information, but the book is pricey, over all it is a good collectors guide.

This book is the ultimate source for information, photos and detail for Cartridge Boxes. This unusual hobby and collectable tends to have rare if any sources of information available. This book is a must-have for collectors.

Good book for the library of the cartridge collector.
