Customer Reviews

It is a very good and detailed guide for Fire stick. This device is just awesome, the features it supports and one of the best thing is that its portable. This book has all the details about all of its features , all you need to do is just read. You will not only understand how to operate it but also how

to set it up at first place.

It is a complete guide on fire stick. This book is full of instructions and information related to fire stick like how to set it up , how to use it, what is the best way to use it. This device has many features and all of their detail is in this book. Very easy to understand and implement the things practically.

I had no idea that such a device actually exist. I must say it is to the rescue of people like me who easily get bored without internet. It has so much interesting features and you can stream videos, play games, voice search and much much more. It is full of surprises. I got all this knowledge from this book.

One thing I can say is that it gives me more choices than I can deal with. It is a great item to get the full benefit of your Prime Membership. It provides you with more choices than I could ever use. I can see why people get just basic cable or satellite service and use this for everything else. It will even read your kindle books to you.

Took only about ten minutes or less to hook up- had no problem connecting not only to Prime, but also Netflix and Crackle. Voice feature seems to work - love it - now can watch these on my other tv set not just the already smart tv in the living room. Great and innovative product - thanks !

Purchased this for our RV down the shore. We didn't want to pay for expensive cable that would be used minimally, so we just went with the internet and the Fire Stick. It is great. My husband is so happy. We purchased a second one for the TV in the back bedroom for our guests. The only down side is we are unable to get any local news. It is not compatible with the Fire Stick. So, we use our iPad to watch local news.

I am satisfied with my purchase, so glad to be ride of cable. Firestick has it issues, but it suits my entertainment needs. I picked up a HDTV Antenna and received the local channels. Best purchase in the last 20 years for me. :)

As the years go by and we lose our desire to spend hours watching programs we REALLY don't want to watch, the opportunity to watch favorite movies and series is breath of fresh air. Thanks to all who have made this device possible!!
