Want to know what your Harmony Kingdom pieces are worth? This book is a must for any collector, or anyone contemplating collecting . Just looking at the beautiful, large pictures will pique your interest! The book is really a handbook, with space on each page to write down what you paid, when, and the value of the item. Each is assigned a value, so you have a guideline when you purchase a piece. They are all in there! There is even a section on the secondary market, and pages in the back to record future releases. All this, an introduction to the artists at Harmony Kingdom, and more. If you aren't a collector yet, you will be after reading this book! This book is a real bargain.

Get a newer ones - prices have changed in the last 6 yrs. - this is now a waste of money.

The book did not address all of the Harmony Kingdom available at the time. I bought it as a value book and at least 1/3 of the book had no price references.
