Customer Reviews

As law students, we frequently highlight and write in our textbooks as a way of interactive reading and learning. I highlight in every one of my textbooks and consider it an important part of my class preparation. Much to my disappointment, the pages in this textbook are SO incredibly thin, that even using a very light highlighter, the color bleeds through to the opposite page. For a \$200 textbook, I am extremely disappointed in the quality of this book.

Grad product, as described. A+++++
