More Views Please - 21 Secrets For Getting Any YouTube Video To Rank #1

Synopsis

Rank Your YouTube Videos At #1 For Multiple Keywords! More Views Please, The 21 Secrets For Getting Any YouTube Video To Rank #1 is the guide to getting any of your YouTube videos to rank #1 for not just one keyword, but for dozens and even hundreds of keywords. This book takes you from the thinking stages all the way to #1 on YouTube in your respective niche or category. You will be amazed at how easy these strategies are for getting YouTube views, subscribers, and most importantly, how to rank your video #1. This is your very own step-by-step YouTube success book. Want to rank for ANY keyword you want? By following every single step in this book for all of your YouTube videos, you can rank any video you want for any keyword, which helps with YouTube money making as you will find out inside the book. In many books like this, I see the same tips (sometimes word-for-word) used over and over again. In this book, I wanted to share the most valuable content I could, the stuff I don't tell you about. I also wanted to make it easy, with step-by-step directions on implementing these YouTube marketing strategies right away. This is a full guide with NO filler content, just pure solid content. I made this book specifically for the person that wants to work hard (but mostly work SMART) to pass up every other video on YouTube in the rankings, and boost your YouTube business to its full potential. I say this all the time (you'll hear it in the book), but most people will fail and never get their videos ranking #1 for one reason only - "because they didn't take action. Go get that #1 spot! So please, if you do end up reading the book, make sure you take each step and each strategy seriously, because when you do, you'll be the one that took action, followed the steps, expanded on your own strategies, and got that #1 spot. I look forward to teaching you my best strategies for ranking your videos high, thanks for reading.

Customer Reviews

This book can be read in less than an hour easily, but that's a good thing. Read the book, take notes, make a checklist, and go through it for every video you make. That being said, I only gave 4 stars because there was some questionable and possibly black hat tips and tricks in here. Yes, the MAJORITY of these tips are white hat, but I was unable to use all 21 tips because I do not agree with all of them.

I am almost ready to return my freshly bought camcorder because I am asking myself - is it worth it? What happens if you Rank # 1? This book does not deal with quality videos, but with many videos distributed among many blogs, and what is the sense in this?

But either way, After Reading this book I can say Fantastic Book!!!! His other book "Traffic Crazy, 10K in a Day" Has a lot of FLUFF.
