Facing The Facts: The Truth About Sex And You (God's Design For Sex, Book 4)

Synopsis

THE REST OF THE STORY-ALL THE REALLY INTERESTING STUFF YOU NEVER KNEW ABOUT SEX. More changes occur in your body and brain during puberty than any other time in your life. Puberty marks the beginning of big changes in your relationships with your parents and the opposite sex. It's a wonderful and exhilarating time, because you're finally becoming an adult, but it can be a stressful and overwhelming time, too. If you don't understand what's happening to you, or why, ages 11-14 can be downright scary. Facing the Facts was written to give you all the information you need to understand exactly what's happening to your body during the years ahead-and why God planned it to happen just that way. You'll learn about: 1) The role of puberty in the development of sexuality; 2) How girls' and boys' bodies change, both inside and out; 3) Exactly how a woman gets pregnant and gives birth; 4) Why God wants you to save sex for marriage; 5) Love and dating: How relationships mature; and 6) Tough answers to some tough problems. Your body and its sexual nature are beautiful and exciting gifts from God that He wants you to understand and appreciate. Reading Facing the Facts and talking about it with your parents will help you be ready for the coming physical changes, equip you to handle the sexual pressures you'll encounter throughout your life, and give you a better understanding of God's perfect design for sex. TABLE OF CONTENTS: Introduction Chapter 1: Why Is God Doing This to Me? Chapter 2: How God Made Women and Men Different Chapter 3: The Changes Ahead for Girls Chapter 4: The Changes Ahead for Boys Chapter 5: How Does a Woman Become Pregnant and Give Birth? Chapter 6: Why Save Sex for Marriage? Chapter 7: Love and Dating Chapter 8: Tough Answers to Some Tough Problems Chapter 9: What Kind of Person Should I Become?

Customer Reviews

I carefully read all the reviews on all the 'Sex-Ed' books on in order to find the best one for my 12 year old daughter (to be used later for my 9 year old son and 8 year old daughter.) We are second-generation homeschoolers and attend a Christian church. I wanted something Bible-based that would reflect our moral views. This book seemed to be the best fit. IT WASN'T. This book is written by a married couple who were virgins on their wedding night. I was a virgin at 22 when I married my husband. He wasn't. I am the daughter of a teenage mom. I attended college early and work as a Paramedic. I have never been in trouble with the police, although I am married to a police officer. I felt comfortable talking about life issues with my step-father. My mother was 15 when she married my 17 year old father after discovering she was pregnant. My father died when I was 5 and my sister was 2; my mother married my dad a year later. But according to the book, I should never have been born. Chapters 1 & 2 were ok. Anatomically correct drawings of male and female organs. Lots of opinion, no footnotes or references. But it is easy to read and uses correct terminology. (Although it does tell readers that the "uterus...delivers the life-giving air, food, and water the baby needs." How about waiting for the placenta chapter and then describing it as oxygen and nutrition?) Chapters 3 & 4 continue the information with details about body changes for boys and girls. Again, lots of opinion, and non-referenced facts. Chapter five begins the downward spiral. The second paragraph states that "pregnancy and childbirth are not always such wonderful events. When a teenage girl gets pregnant outside of marriage, it changes the course of her whole life.
