New York author/plenary advisor William Blackburn graduated from college in 2003 and sums up his persona in his brief (and not too informative bio): â˜He does odd jobs and lives a minimalist lifestyle to support himself. Instead of complaining about how unfair the world is, he takes action and writes self-help books. He is very passionate about writing, arts and crafts, traveling, and has always felt the need to learn and teach others. William dedicates his free time to writing these books and traveling the world. His other books are *Tiny Houses* and *How To Earn Money Fast*. So, we may ask, why write a book on Crocheting? And William answers that in his introduction: â˜Crocheting is still a popular pastime that everyone from the 90s all the way down to young ones still in elementary school participate in. There is nothing more satisfying than to sport your own creation in your own favorite colors. One of the great things about crocheting as a hobby is that you do not need a tremendous amount of supplies. All you need is a crochet hook to your liking, yarn or other material that you want to work with, and some scissors. Of course, you will also need a bin or a bag to keep your project in when you are not working on it.â™ Now that he has our attention he proceeds to teach us that fine art of crocheting! His instructions are accessible, easy to understand and to follow and he steps us through the following topics with facility: Crochet Basics, Crocheting Kits, Simple Crocheting, Crochet Circles, Pattern for Crochet, Summer Crochet Patterns, Summer Crochet Hats and Crocheted Handbags.
