Customer Reviews

I was very disappointed with this book. All the projects are simply slightly different stained glass designs to incorporate in mosaics. No new creative or innovative techniques or ideas.

If you are a beginner, this book has a lot of pretty designs to try. I didn't love every single project, but I plan to try most of the items. I really liked the gallery ideas in the back of the book--lots of creative ways to modify these patterns. This book would also be a good beginner book for children to learn mosaics, as it has a number of stepping stone ideas. Overall, I think this is a nice book to

add to your library if you are a beginner and need some creative ideas to get you started.

Good information for the beginner. Some fun projects. Good instructions, very nice patterns and great pictures that walk you thru the project.

Loved it, lots of great projects with clear instructions
